

**OPCON USA, LP**

AUTOMATIC DOOR OPERATOR CONVERSIONS.™

PROUDLY MADE IN THE USA

**CONVERT \* CONCEAL \* CONNECT**

## **NOT SEEING IS BELIEVING!**

Let OPCON Automatic Door Operator Conversions open up a whole new universe of design possibilities while providing real-world solutions to virtually any accessibility requirements your project may have - regardless of opening type and/or conditions!

Proudly Made In The USA.

Retrofit and New Construction.

OPCON Automatic Door Operator Conversions incorporate standard automatic door operators by most major manufacturers. The OPCON System utilizes a case/chassis assembly to convert automatic door operation to a complete underground/in-floor system. OPCON is also in final testing for automatic sliding/folding door applications (U.S. and International Patents Pending).

## FEATURES

### OPCON USA, LP

- \* U.S. Patents #6,176,044 B1; #8,091,283 B2
- \* Proudly made in the USA
- \* Controller mounts inside system. No remote mounting required
- \* Converting most major automatic swing door operator products to underground/in-floor.
- \* Working with AAADM certified installers
- \* Full-speed and ADA compliant systems
- \* Water-proof installation under threshold, under stone, under floors. No drainage system required
- \* Small profile and floor block-out
- \* Adapts to most hardware applications: panic devices, electric strikes, sensors, etc.
- \* U.L. 50 (“water-tight”) rated enclosure

#### ARCH/TRANSOM/HISTORICAL

How do you incorporate automatic operators and not compromise design aesthetics?

The OPCON system delivers ADA compliance for arched and/or slanted header and transom conditions. Think of the world of possibilities!

#### GLASS/BLUMCRAFT FRAMELESS

Today’s modern curtain-wall elevations and all-glass openings add beauty, light and durability to many iconic structures through-out the world.

The OPCON system was designed to meet the challenge of egress hardware application while maintaining unencumbered design lines.

#### RETAIL/STOREFRONT

The entrance of a retail storefront is a company’s opportunity to marry their brand to customer in the most tangible way possible.

The OPCON system allows accessibility requirements to be met while nothing but company image shines through.
